

# Errors:

## 1. Problem with routers

```
ERROR
You cannot render a <Router> inside another <Router>. You should never have more than one in your app.
    at invariant (http://localhost:3000/static/js/bundle.js:13934:11)
    at Router (http://localhost:3000/static/js/bundle.js:52504:103)
